

JOB POSTING

Registered Diagnostic Medical Sonographer

Looking for an opportunity where you can apply your expertise in a life affirming practice? Work for a ministry that seeks to support woman in her pregnancy decision by providing vital medical information when she first finds out she is pregnant.

About Us:

Pregnancy Help Clinic (PHC) is a faith-based 501(c)(3) specializing in providing vital life-affirming medical testing and education to a woman when she first finds out she is pregnant. Additionally, clients receive parent mentoring and material support until their child turns 3 years old. PHC has provided free and confidential services for families in need for 46 years.

The Position:

This part-time position works directly with patients performing limited obstetric ultrasound exams on board our mobile medical clinic. A successful candidate will maintain a current RDMS credential in obstetric sonography and current CPR certificate. Knowledge of pregnancy and fetal development as well as proficiency in performing first and second trimester ultrasounds, including abdominal and transvaginal scans is required.

The Location:

The mobile medical clinic will be based in Brighton and travel to Ann Arbor and Lansing. Staff can ride to the operation location on board the unit or travel in their own vehicle.
